Subject EPA's Groundwater Monitoring Statistical guidance has been
finalized

Corrective Action Permit Team and others:

I have been contacted and given a link to the final version of the EPA's Unified Statistical Guidance. This is an updated version of the previous 1992 document. Please forward this link to anyone who can use this guidance. I understand that the March 2009 Unified Guidance for statistical analysis of groundwater monitoring data from RCRA facilities has been finalized. The link below is the EPA website for Groundwater Monitoring Statistics and this is where one can download this guidance. The Fact Sheet for the March 2009 Unified Guidance should also be downloaded.

Let me know if you have any questions.

Thanks

Bernie
